

## Rebound Rumble Released

*FIRST Robotics teams across the country excited to begin the 2012 Build Season*

The 2012 FIRST Robotics season was kicked off Saturday, January 7, with the release of the Rebound Rumble Game. This year's game is basketball-themed, and is played by two competing alliances of three robots each on a 27' x 54' field. The alliances compete to score as many baskets as possible in a 2 minute 15 second match. The higher the hoop through which a basketball is thrown, the more points the Alliance receives.

The FIRST robotics teams now have 6 weeks to build their robots to compete in this year's game - Crunch Time is here!

For more information about FIRST Robotics and the 2012 Rebound Rumble game, go to the FIRST Robotics webpage [here](#).

For the more information on the kick-off, go to the NASA Robotics Alliance site [here](#).
